Emissions reduction targets

We project that carbon emissions will decrease each year in line to achieve net zero emissions by 2050.

Carbon Reduction Projects

Company vehicles – A fully electric vehicle will be used in preference to a diesel vehicle, which will reduce emissions

Business Travel – Any business travel will be kept to a minimum by using video calling to replace in person meetings. We have also engaged with an IDVT provider which will eliminate the need for travel to meet new candidates for the purposes of Right to Work checks.
